## Comment Area

- Very helpful
- Amazing teacher, really motivated students to learn and made sure each student understood the material extremely well.
- She is an excellent professor! She is very energetic and willing to listen to everyone's opinion. She explained things very well and kept everyone motivated.
- Cindy is an AMAZING teacher! She is very easy to talk to and makes the teaching environment comfortable for everyone. She actually took time to learn everyone in the class' name and that is something you don't find in most teachers. I really appreciated every effort Cindy made to make the class actually learn the material and not just learn for the moment. I would recommend Cindy to anyone.
- I enjoyed cindys lecture very much
- Cindy is a very intelligent person. She was a great teacher and I will be able to use what we learned in class for the rest of my life. I would recommend any student to take her class even if it isn't required because it is very important to know how to critically think.
- Very hard to understand. Did not feel like I understood what she was trying to teach.
- The teacher was very helpful in helping us understand the material.
- Cindy Phillips is an excellent instructor she almost seems to smart to be teaching the course. She explains class material very well even to it's finer qualities. The only negative aspect of the class is I think Professor Phillips class became a little too rowdy at times.
